## LAKE SHIPMENTS CLOSES ON MONDAY

(Continued from Page One)

The Monongahela Coal Association at the Chicago meeting of operators and miners, returned here yesterday afternoon. He arrived here before the final sessions had been conducted in Chicago.

C. H. Jenkins, vice president of the Hutchinson Coal Co., who represented the Northern West Virginia Coal Operators' Association in the conference, is understood to have served on one of the sub-committees, was expected to arrive home from Chicago on the noon Pennsylvania train.

Although President Lewis of the United Mine Workers of America, is quoted as saying that "some substantial progress has been made" in connection with working out ways and means to avoid another coal strike in the spring, it is believed here that little progress has been made. It is understood that the conference opened with an address by President Lewis in which he handed some verbal bouquets to the operators, which they more or less recognized as brick bats.

This was followed by an address by William Green, the international secretary of the United Mine Workers of America, who endeavored to make the point that they would not do for the operators to question how the miners lived up to the integrity of the contract. The operators and miners then broke up into group meetings. The miners' group was composed of five men of whom Fred Mooney, Charleston, was one.

Lake Shipments  
Lake coal shipments off the Monongahela Division B. and O. yesterday aggregated seventy-eight cars, which was the lowest of the present week. No coal shipments were made off the M. and W. yesterday.

Pier Shipments  
Coal shipments to Curtis Bay off the Monongahela Division are on the increase, although the gain has been gradual. Fifty-six cars of coal were shipped there yesterday.

It is understood that the gains to Curtis Bay are apt to be more pronounced after the lake season closes as some coal for New England will be worked that way.

Coke Loading  
Fifty-five cars of coke were loaded in Northern West Virginia yesterday. Thirty-five cars were loaded off the Monongahela Division, and of that fourteen cars went east and twenty-one west. Three cars of coke were loaded east off the Connellsville Division, three east off the Cumberland Division, and fourteen cars east off the M. & K.

Eastern Loading  
Coal loaded east off the various divisions yesterday was as follows: B. & O.—Monongah, 583 cars; Charleston, 20 cars; Cumberland, 69 cars; M. & K., 68 cars; M. & W., 5 cars; W. M.—Bellingham & Weaver, 13 cars; Wyatt-Bingamon & Helen's Run, 26 cars.

Wagon Loading  
One car of coal was loaded by a wagon mine on the M. & K. yesterday. Some wagon coal mines continue to load coal on the sidings of the Monongahela in this city.

Railroad Fuel  
Three hundred and eighty-two cars of railroad fuel were loaded off the Monongahela Division yesterday, and of that 146 cars were loaded for the B. & O. and 238 cars were taken by foreign roads.

Fourteen cars of railroad fuel were loaded off the Cumberland Division, all of which foreign roads got except two cars. Seventy-five cars of foreign railroad fuel were loaded off the M. & W.

## STOCKS DULL AND IRREGULAR TODAY

Main Tendency Upward in Opening Sales of Short Market Session.

NEW YORK, Nov. 18.—Liquidation of speculative accounts and short selling in some quarters coincident with absorption and short coverings in others gave the stock market a spotty appearance in today's dull and irregular dealings. Generally, the more active issues moved to higher ground, moderate strength developing in most of the independent steels, shippings, oils, Coco Cola, American Tobacco A and B, Continental Can, Davison Chemical, Public Service of New Jersey, People's Gas and Burns Brothers A. Conspicuous weak spots were Consolidated Gas and International Harvester, each off 3 points, and Pierce Arrow preferred off 4. Heaviness also was noted in the food group, particularly Corn Products, Amalgamated Sugar and American Beet Sugar, as well as in Matheison Alkali, Laclede Gas, Worthington Pump, United Retail Stores and Pittsburgh Coal. The closing was irregular. Sales approximated 325,000 shares.

Early trading in today's stock market was dull and irregular with the main tendency upward. Price changes largely were of a fractional character. Piggy Wigly broke 2 points on the announcement of the receivership of Manhattan Piggy Wigly Corporation some of the other foods weakened in sympathy, notably Jewel Tea preferred and certain products, Bethlehem Steel B was under pressure, but Republican, Crucible and Gulf States steel moved to higher ground. Railroad shares are mixed. St. Paul preferred, Atchison, Texas Pacific, Louisville and Nashville registered moderate gains. Other strong stocks were Dupuy Powder, Remington Typewriter, Julius Kayser, Utah Copper and Sears Roebuck, all of which showed gains ranging from 1 to 3 1/4 points. Foreign exchange was steady.

ped in the meantime, hence he still was in the meshes of poverty. Forced to strike out on a different tack, he obtained a position in a library, where he remained for two years, the happiest ones of his life, he said not long ago. Libraries were not used much in those days, and the young Frenchman had ample time to seclude himself among the books, reading the best philosophers and historians while he perfected his English.

"There my mind acquired what it lacked and my intellect completed its formation," he wrote years afterward.

In the evenings the young student would invariably be found at Pfaff's, a famous old German restaurant in Lower Broadway, where in the early sixties met the little group of celebrities presided over by Henry Clapp. The days of Fritz James T. Brien, Walt Whitman, George Arnold and Charles Dawson Shanley at Pfaff's were gone, but there still was an atmosphere of romance about the place that attracted a younger generation of intellectuals, and to this coterie Georges Clemenceau was introduced.

Loves New York  
A few months before he had written to the TEMPS that "Americans had no general ideas and no good coffee." But now all this was changed. The chef at Pfaff's was the most marvelous cook extant, he wrote, and the coffee brewed there was sublime. Ideas, too, he found plenty. "He grew to love New York, and even applied for citizenship papers."

Once he was tempted to do a little traveling in the New World. He went to the Middle West and journeyed as far south as Richmond, Va., but did not penetrate farther into Dixie. The state of the country, he said, just recovering from defeat in the Civil War, was so deplorable that it filled him with sadness.

Upon his return from the south he was introduced to a Miss Alken who had just started a school for girls at Stamford, Conn. She offered him a position as professor of French which was too tempting to refuse, and for more than a year he was absorbed in what he found to be a delightful occupation.

It was here that his brilliant scholarship was of the greatest benefit, for in addition to teaching conversation French, he did a prodigious amount of work for the school, giving lectures on literary history, both French and English, and translating several works of John Stuart Mill into French.

In connection with his work, he did some more traveling, going frequently to Washington, where he was often seen in the legislative halls, a silent observer of government in the making. He was particularly interested in the House of Representatives and in the Senate, which he hoped some day to see duplicated in France.

Miss Alken, who was a practical soul, discovered that Clemenceau was an expert horseman, and upon her suggestion a course in horsemanship was added to the curriculum, with the professor of French at its head.
